MD English Grade 5, Part II Grade Level Test**5. 1 point**

Answers may vary. However, clouds are made from water vapor and they are classified by their shapes. Not all clouds produce precipitation.

14. 3 points

Students should have an understanding that the celebration of Groundhog Day comes from a tradition from the Punxsutawney Indians and a separate tradition from Germany. Groundhog Day occurs on February 2 of each, and the weather for the remainder of the winter is determined whether or not a groundhog sees his shadow or not.

24. 1 point

John Chapman planted apple seeds because he wanted the entire landscape to be covered in apple blossoms.
