Dear Colleague:

We are preparing our offering for the SY 21-22 school year. Below is an update.

- Our ***Simulation Tests, Grade-Level Pre-Post Tests, and Item Banks*** are all 100% aligned to the present SOL standards being tested by the State. We have enhanced items for grades K-12 also.
- We have updated our ***Science*** materials to align with the revised 2018 standards. We have *Grade-Level Tests* and *Item Banks*, for each course and/or grade K-11.
- We offer a set of materials for the revised 2016 ***Mathematics standards***. These include *Grade-Level Pre-Post Tests, Item Banks, and Simulation Tests* for each course and/or grade K-12.
- The **English items, tests, and banks** (Reading and Writing) are now correlated to the 2017 Standards. There are now short- and long-forms *Simulation Tests*.
- We also offer a set of materials for the revised 2015 ***History and Social Science*** standards. These include *Grade-Level Pre-Post Tests* and *Item Banks* for each course and/or grade K-12.
- The *Item Banks* (Student Assessment Banks) have additional items added to the existing banks.
- Should you need assistance in developing benchmark tests, we are able to offer that service.
- You are encouraged to visit our website <http://www.tfhs.net> and read our **SUCCESS STORIES, User Guide, PowerPoint Description and Usage along with our new ACT listing.**
- Our assessments can be offered online through **Reports Online System** (allros@rosworks.com).
- We now offer a simulation of the ACT Math and English tests with an extensive item bank and a matrix for diagnosis. The SOLs do not cover many ACT standards!

If you would like we can FedEx you a content CD with all of our assessments that you can review with Dr. Flanagan (804-725-7997). He will walk you through and explain the layout. He can also assist you with plans to maximize the benefits of our testing system. We look forward to working with you and having another good year!

Best Wishes,

S. Stuart Flanagan
