Dear Colleague,

We are preparing our offering for the SY 17-18 school year. Below is an update.

- Our ***Simulation Tests***, ***Grade-Level Pre-Post Tests***, and ***Item Banks*** are all 100% aligned to the present SOL standards being tested by the State. We have enhanced items for grades K-12 also.
- We offer a set of materials for the revised 2016 ***Mathematics*** standards to be implemented SY 18-19. These include *Grade-Level Pre-Post Tests* and *Item Banks* for each course and or grade K-12. *Simulation* tests will be developed when the DOE releases its blueprints.
- We also offer a set of materials for the revised 2015 ***History and Social Science*** standards to be implemented SY 18-19. These include *Grade-Level Pre-Post Tests* and *Item Banks* for each course and or grade K-12.
- The *Item Banks* (Student Assessment Banks) have additional items added to the existing bank.
- We have added more TEI-type items to the *Item Banks* (Student Assessment Banks) for Mathematics and now include Science and ELA.
- Should you need assistance in developing benchmark tests, we are able to offer that service.
- If requested, we will provide COMMON CORE assessments for Mathematics and ELA.
- You are encouraged to visit our website <http://www.tfhs.net> and read our **SUCCESS STORIES and User Guide**.
- Our assessments can be offered online through **Reports on Line** (ros@rosworks.com).
- We now offer a simulation of the ACT Math and English tests with an item bank and a matrix for diagnosis.

If you would like we can Fedex you a content CD with all of our assessments that you can review with Dr. Flanagan (804-725-7997). He will walk you through and explain the layout. He can also assist you with plans to maximize the benefits of our testing system. We look forward to working with you and having another good year!

Best Wishes,

S. Stuart Flanagan
